

SAFETY/SECURITY WINDOW FILM

SRC SD401T-50% (4MIL)

SPECIFICATION

- **2PLY window film construction.**
- **Rejects the harmful UV rays up to 99% (Optional).**
- **Protected by anti-scratch Coating.**
- **Exclusive glue, providing strong cling to glass surfaces.**
- **Durable and high transparency polyester film.**
- **Window film roll size (width/length) can be customized.**
- **JUMBO roll for tinting professionals.**

Color	Grey
Layer	2 PLY
Thickness	100 micron (4 MIL)
% Visible Light Transmittance	50%
% Total Solar Energy Rejected	20%
Tensile Strength (Kg/mm ²)	>15
% Elongation at Break	>100
Peel Strength (g/inch)	>3200

Notes:

1. Performance results were generated from testing film applied to 1/8"(3mm) clear glass.
2. Tests, equipment and methods are in accordance with ASTM D882. The data is provided for information purposes only.
